PROJECTS

Ecommerce Website

[Source Code](#)

- * Complete Admin Dashboard to manage products, orders, reviews, users.
- * Add third party site like cloudinary to upload images

Youtube Clone

[Source Code](#)

- * This project is similar to YouTube; I have implemented the required features, allowing users to search for and play videos
- * Deployed the website on Netlify. [Link](#)

Taxi-Booking App

[Source Code](#)

I can book the taxi, and I have implemented Strapi for payment. You can select the source and destination, and also view it on the map.

Deployed the website on Vercel. [Link](#)
